

```
console.log('start')
```

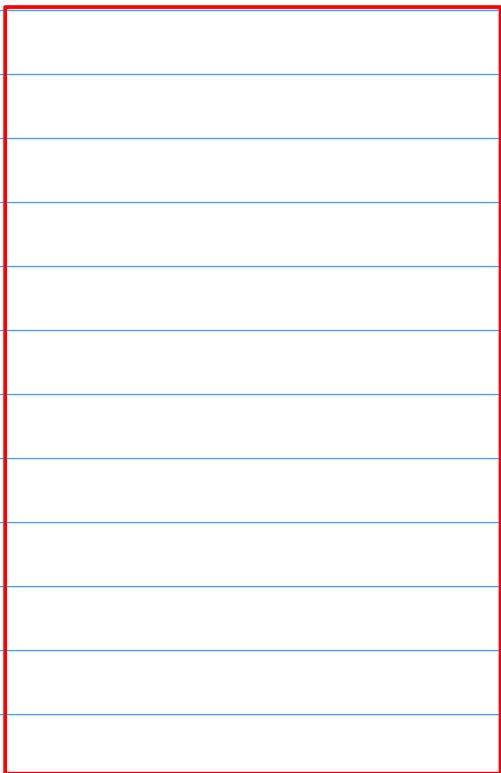

```
function task1() {  
  console.log('Inside task1')  
  setTimeout(() => {  
    console.log('task1 started')  
    console.log('task1 finished')  
  }, 0)  
}
```

```
function task2() {  
  console.log('Inside task2')  
  setTimeout(() => {  
    console.log('task2 started')  
    console.log('task2 finished')  
  }, 0)  
}
```

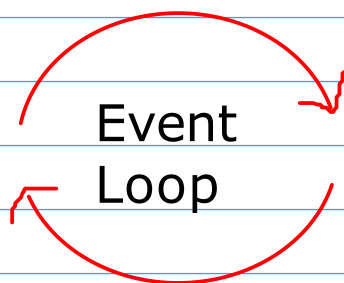

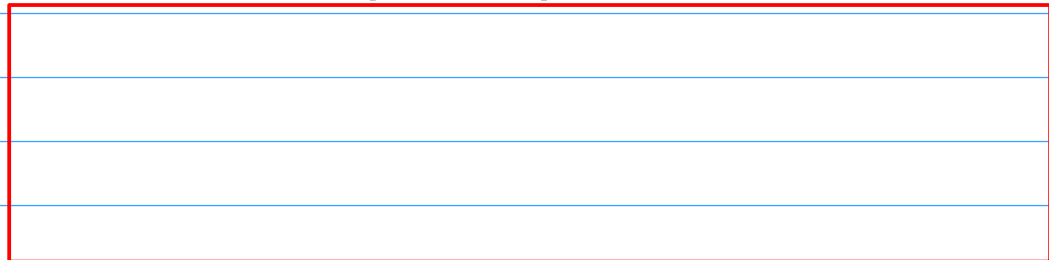

```
function task3() {  
  console.log('Inside task3')  
  Promise.resolve().then(() => {  
    console.log('task3 started')  
    console.log('task3 finished')  
  })  
}
```

```
task1()  
task2()  
task3()  
console.log('end')
```
